begin session preparatin

sanctuary; coordinates

OK un movement trusting out forward coming back smooth  
define circular area movement gent on back

✓ surroundings

open area up - him - clean area - outdoor  
the street is big hard structure, quiet, ....

✓ street.

quiet around the street, big hard brown, business place  
big but stands alone natural surroundings quiet  
makes street quiet

✓ locate

now I looking at street - outside at side -

✓ where located

~~now~~ I've got to move back

walkway, water & brown ground, street sits, different  
ways to enter it walkways, path

• trees grass parking nearly nearly in front, big black  
off -

✓ inside structure - OK man working, sitting, hands up

the inside street... an area where men seem to be working,  
meeting, talking together, old surroundings, very old surroundings,  
high ceilings, a dampness, coldness, damp & cold, very sparsely,  
almost empty, furniture old, nothing to make it pleasant,  
street.

✓ meeting.

men, heads together, they (hold on a min) a talking,  
yes... meeting, vastness of space, vastness of space

time, time, time and concerning themselves  
with occurrences that seem to involve complexity.

Then fiery ball moving that looses flaring - these  
men - can see them very good - just see heads - then  
hurry a part involved here - study the part - trying -

daily occurrences natural occurrences -

don't know why I can only see their heads.

There more - movement is the ball sputter - spinning

Men who want to know what's going on - daily occurrence -

forecasting - trying to - I don't think they know the outcome.

looking at how fast ball - travel speed - pathway  
to where it travels - speed.

✓ when is ball now?

it's spinning around - it loses as it travels - loses particles,  
breaks off - red - no - hot green ball - it swooshes  
moves in sweeping motions.

✓ when does it travel

comes down, zig zags - up in the high, high high -  
it travels high

then men that study have hard time placing them -  
I don't know how they look at them -  
seems they are close or very far away -  
two different places. Study on paper

OK after ball moves - draw on paper when it moves -  
hard time forecasting - draw on paper when green ball does.  
afterward - unknown - men working with unknown

✓ green ball greenish dark, navy blue, black or navy blue ships  
a light that twinkles dark.

✓ what are men worried about

- no controls no control they can only study after the fact  
foreman hard to sit wait watch - situation although they  
don't know it. They think they try but can only.

✓ watch what it will do

splits apart, so I can see it side ways, new form -

✓ does it affect people

hold on

yeah it does, emotionally, see what it, the landing -  
uncertainty of landing - not know where the guy is landing -  
emotionally disturbing - physically could hurt - but didn't -  
emotional concern for physical damage which never took place.

✓ ball now

it took a very straight path - it went very straight  
a straight up & down path -

③

✓ danger zone - that is  
 ✓ what are men doing now

one man is very much concerned - ready ready,  
 not much he can do - hes by himself - another group  
 somewhere else - don't need - they do work -

turning adjust specialists they don't have to  
 answer to people - just try to same job thru

turning work highly skillful specialized men.  
 A public that needs to be answer to - not their job  
 needs - making report news.

✓ when on earth stand

sunny, ... green leaves, large almost as big  
 as trees green brown flat lands no mts but  
 green,

✓ people near here

✓ explore structure inside -

gold steps move in circular area up  
 the structure is big empty can hear you echo  
 floors are square tiles - sometimes right away  
 things to look at history - some try in part  
 go part

✓ I see ball again - that ball is thicker, rounder,  
 need to look at more beautiful ballance move in  
 harmony prettier it changed -

✓ how do it change

moving parts, things it change as cycles  
 went by. Structure was noisier. The beginning.

✓ look around

I feel in a space, structure dark - floaty.

1344

✓ ask people where they are

they're working people, much brighter than we are -

✓ come from where?

the a dark place - warrior - a place meaning  
 warrior

✓ describe plan

now I see red - black red - dark red -

there are dips - dipping like valleys but it's funny

⑨

- cratering. Darkness associated with area - red green,  
black many blue - I can leave & I can go into zone  
all leave?
- ✓ some men did leave, but why don't I see women  
or children?
- ✓ look beneath.  
now there is the beam - climbing down it but  
the men when the work stopped - trying to save  
an area - natural occurrence - it was a big shake  
that could have altered area - but men extending  
surviving - ~~the~~ wear something over heads ears -  
trying to preserve - reaching from beyond current  
area to bring things back into work
- ✓ women & children  
stay together babies not born but they used to  
be - at one time - this plan because of location  
was always rather dark but better off in fact than now.  
people very very very serious Ed - of to other people  
in time survivors - must be seen in order to  
survive - look fairly - other plan
- ✓ Just men & children  
in center - area - little holes!  
down in holes - light ~~be~~ gleaming little  
small, tubular don't know how they live -  
depend on nat resources - don't see any food -  
natural resources - what tell suchy down  
- describe them - women & children  
men - white faces, thin tall angular noses, ears,  
sharp - the women had grey men skin smooth shiny,  
Women dress with some wrap around them -  
men - skin suits so close to skin & not ~~admit~~ see -  
all blue eyes - although men - more different than  
women  
how are babies born  
Tubes not many - counted

⑤

babies look alike - planines

✓ can we help

they need a gun stuff,

✓ how can we help them

1350

by pray close atten to universe - knowing that  
existence is everywhere - even that life itself  
that essence exists everywhere - We We  
We are stupid - we can help by talking to them  
communicating.

✓

when

Caves - mention the in dark places in wilderness  
in caves - they have dark caverns but nicer -  
white lights - every source that - that is good -  
so many things so much yet different -  
man is pointing to maps Point North -  
to NE rocky areas Big rocks -  
caverns caves - exchanging greenery  
he says that they can when something on back  
(?) its so they can -

✓ come how?

Much prep. needed - but before - been here before  
by the ago - won't needed > to when we are now.  
War gets mad - something about person envir. impact.  
- lagging behind.

✓ live - sleep

big rock - by flat rock - walking study soil -  
men are talk the we learn them - he would like to  
come for an exchange > NE > core of earth  
inside > changing - when it changes most dramatically  
they will visit.

✓ fossils why?

Just take green now, steaming,  
became something and the fossils - give off the rays.  
fossils... so feels sorry for them - then losing

⑥

- they are brilly smart > it's
- ✓ they must all in to help on they will be -  
One man knows, other know - more superior >  
more superior, they don't like to deal with inferior ones  
- it's hard time - hes in he agrees -
  - ✓ Tell him we will do anything need to help.

look the vaccuums in earth - pockets  
that's where they will be.
